

Polishing lambswool, premium

Product key 210

Polishing lambswool consisting of 90% natural wool and 10% polyester. This combination provides for longer service life and greater volume. And it can remove sanding scratches , for example, 30% faster than with using a sponge. Ideal for UV paints and the latest generation of scratch-resistant paints. For a great polishing effect in combination with the fine polishing compound. The special PerfectTouch sandwich design and extra orange foam layer gives the pad that slight degree of cushioning and much greater stiffness. This allows for a perfect surface contact even in problem areas and an optimal and exact guiding.

Polishing

Cutting polish

Product key 212

Special polish for removing deep scratches and heavy traces of wear, as well as for reconditioning heavily-weathered paintwork and sanding up to grit size P 1500. For all paint types, including scratch-resistant paints, UV paints and for working on gliders and motorized aircraft, boat hulls and polycarbonate. Rotary working and the red polishing sponge deliver optimum results. If holograms or matting occur, they can be effortlessly removed in the second stage using the black finishing system. The polish is completely free of silicones, waxes and solvents.

PC-C 1000	Polish	1000 ml	532412	4030293262522	1

Universal polish, 1-step

Product key 212

Ideally suited for moderate scratches, traces of use and for refreshing the colour of used paintwork with subsequent sealing in just one step. Slight to moderate scratches can be removed effortlessly and without holograms forming. Positive-drive random-orbit machines and the violet polishing sponge deliver optimum results. High-quality carnauba wax components provide an additional and long-lasting protective layer after polishing with a high deep sheen and a perfect beading effect.

PC-F 1000	Polish	1000 ml	532416	4030293262560	1

Other accessories

Microfibre cloth, universal

Product key 212

High-quality and highly absorbent microfibre cloth with one short-pile and one medium-pile side. Polish residues can be easily picked up and removed using the short-pile side. The medium-pile side is perfect for removing sealant residues, among other things. Very gentle on paintwork thanks to its rimless cut shape.
