Microfibre polishing pad

Product key 210

Microfibre polishing pad for a high removal rate for use with eccentric polishers, especially with a free-running pad. For heavy cutting, this pad is more effective than a standard fleece pad. The special PerfectTouch sandwich structure with an additional stronger white foam layer gives the pad greater rigidity. It is not necessary to use an additional interface. Ideal for dealing with water droplets, orange peel, trapped dust, tar specks, scratches and bird droppings.
