PE 14-3 125

The all-rounder for small to medium-sized polishing discs.

Technical features

- VR microprocessor electronics: with tachometer-controlled constant speed, soft start, accelerator trigger switch, restart protection after power failure, overload protection, temperature monitoring and speed preselection
- Accelerator trigger switch for a slow and sensitive start
- Thanks to the wide speed range, ideally suited to work perfectly with polishing pads from Ø 80 to max. Ø 160 mm
- Recommended polishing pad Ø 140 mm
- Ergonomic design
- Slim handle and ergonomically shaped handle cover for optimum handling and fatigue-free polishing
- 4-metre PUR H05-BQF cable: wear resistant, flexible with high abrasion and notch resistance
- Spindle lock

Ancillary polisher for

- Workshops
- Bodywork
- Paint shop
- Smart repair

Technical data

Max. polishing pad Ø	160 mm
Max. backing pad Ø	125 mm
No-load speed	1100-3700/min
Power consumption	1400 W
Tool fixture	M 14
Weight	2.2 kg

PE 14-3 125

Standard equipment

- 1 side handle

Order No.
