Microfibre polishing pad

Product key 210

Microfibre polishing pad for a high removal rate for use with eccentric polishers, especially with a free-running pad. For heavy cutting, this pad is more effective than a standard fleece pad. The special PerfectTouch sandwich structure with an additional stronger white foam layer gives the pad greater rigidity. It is not necessary to use an additional interface. Ideal for dealing with water droplets, orange peel, trapped dust, tar specks, scratches and bird droppings.

Designation	Diameter	Order no.	GTIN	Qty.

Cutting pad, hard

Product key 212

High-quality, hard sponge for maximum removal rate. The special reticulation makes the red foam very tear-resistant and durable. Ideally suited for deep scratches and heavily-weathered paintwork when combined with the red polish.

Universal pad, medium

Product key 212

High-quality universal sponge. The special reticulation makes the violet foam very tear-resistant and durable. Ideally suited for moderately-scratched paintwork, traces of use and for refreshing the colour of used paintwork with subsequent sealing in just one step when combined with the violet polish.

Finishing pad, soft

Product key 212

High-quality and soft finishing sponge for a maximum deep sheen. The special reticulation makes the black foam very tear-resistant and durable. When combined with the black polish it's ideal for removing slight scratches, holograms and for general colour refreshing.
