Net sanding abrasive

Specially developed for highly-dusty substrates in drywall construction. Thanks to its innovative open grid structure, it enables sanding dust to be extracted from the entire surface, ensuring a clean working environment and optimum sanding results. Further advantages: high abrasiveness, very long service life, easy attachment with hook & loop fastener. The net sanding abrasive can be used independently of an existing extraction hole system.

Technical data

Designation	Grit	Diameter	Order no.	GTIN	Qty.
