

Flexible shaft FS 140

New, clever and quickly ready for use without tools. Working on spots in tricky places has never been so easy. The 140 cm shaft makes using it flexible and ideal in hard-to-reach areas.

Technical features

- Toolless mounting on PXE. The innovative quick-change mechanism of the PXE allows the shaft to be mounted quickly and easily
- Toolless quick change of accessories thanks to bit holder. This allows the polishing discs to be changed quickly and easily.
- The form fit of the hexagonal mount prevents the polishing bodies from slipping through. This guarantees even and perfect polishing results every time.
- The 140 cm shaft can be guided comfortably and conveniently without the polisher tipping or having to be held in the hand all the time.
- High-quality materials guarantee an extremely long service life.

Applications

- Paint preparation & scratch removal
- Door handle recesses and radiator grille
- Exterior mirror casing
- Vehicle emblems, logos & lettering
- Rims
- Spot repair
- Interior (piano lacquer, fittings etc.)
