XFE 7-12 80

The small, compact tool is the ideal complement to larger polishers. Perfect for spot repairs. It can be used for a large number of applications when working with difficult shapes.

Technical features

- VR Electronics: with tachometer-controlled constant speed, soft start, overload protection, temperature monitoring and speed preselection
- Free-running drive for hologram-free finishing
- Handle cover: ergonomically shaped with Soft-Grip. The tool can be guided with precision and always provides a pleasant and safe grip
- 12 mm polishing stroke for high efficiency
- Lightweight and handy for use on smaller areas, difficult to reach places
- Low heat generation on the surface makes it ideal for temperature-sensitive paints
- Perfect for spot repairs and difficult shapes. Ideal complement to larger polishers

Supplementary polisher for:

- Car restoration
- Car repair shop
- Smart repair
- Maritime
- Acrylic glass
